

PARTIAL-BIRTH ABORTION

[diagram 1: Guided by ultrasound, the abortionist grabs the baby's legs with forceps.]

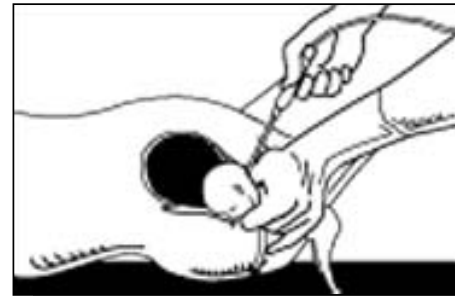

[diagram 2: The baby's legs are pulled out into the birth canal.]

[diagram 3: The abortionist delivers the baby's entire body, except for the head.]

[diagram 4: The abortionist jams scissors into the baby's skull. The scissors are then opened to enlarge the hole.]

[diagram 5: The scissors are removed and a suction catheter is inserted. The child's brain is sucked out, causing the skull to collapse. The dead baby is then removed.]

Partial-birth abortion is a procedure performed in the second and third trimesters of pregnancy.
